RESOLUTION NO. 310

"Whereas, the topic on the program of Newborn Screening was presented to the August Body for deliberation;

"Whereas, as per information received, Newborn Screening is a simple procedure to find out if a baby has a rare metabolic disorder;

"Whereas, the August Body feels it necessary to set aside an amount for this project considering the harmful effects that it will give if these disorders will be left untreated that will eventually lead to physical disabilities, mental retardation, and even deaths to these infants;

"Now, therefore, the Sangguniang Panlungsod, upon motion of Member Teodoro C. Aguilar, seconded by Member Antonio D. Calumpang, resolved to set aside an initial amount of P100,000.00 and its inclusion in the next year's Annual Budget and to make any increase when the IRA shall have been adjusted;

"Approved.

I HEREBY CERTIFY to the correctness of the above-quoted resolution.
