

NSRC QUALITY POLICY

We, as NSRC, mandated to provide technical assistance to the DOH in implementing newborn screening services in the country, are committed to rendering our mandated tasks to the highest quality to meet the needs and expectations of our interested parties. The NSRC is also committed to comply with the requirements of and to the continual improvement of its QMS.

To fulfill this,

- The resources necessary to execute its daily operations shall be provided for;
- All applicable regulatory and statutory requirements, contractual agreements, as well as relevant national professional standards to newborn screening shall be complied with;
- Evaluation and assessment of the work processes for risks with the intent of improving relevant activities and optimizing the overall operations of NSRC shall be the goal of all its employees; and
- The work environment within NSRC shall nurture an atmosphere where personnel can derive satisfaction from their work, and are motivated and proud of being associated with the organization.

The NSRC shall determine, strive to address all risks associated with its missionary functions, and continually improve its performance in order to achieve its institutional objectives with the ultimate aim of satisfying the needs and expectations of its customers and other stakeholders.
